

If you're suffering from nerve problems in the arms and legs, you must read about a clinical study that showed..

How 85% Of Patients Eliminated Numbness, Tingling, or Sharp Pains

Numbness, tingling, and pain is an extremely annoying problem.

It may come and go...interrupts your sleep...and even makes your arm or legs feel weak at times. Maybe you've even been to other doctors and they claim all the tests indicate you *should* feel fine.

If You Read Nothing Else, Read This:

More than 20 million Americans suffer from peripheral neuropathy, a problem caused by damage to the nerves that supply your arms and legs.

This painful condition interferes with your body's ability to transmit messages to your muscles, skin, joints, or internal organs. If ignored or mistreated, neuropathy can lead to irreversible health conditions.

Why not get help by those trained to correct the major cause of peripheral neuropathy. Read the full facts on this page.

More Pills Are Not The Solution

A common treatment for many nerve problems is the 'take some pills and wait and see' method.

While this may be necessary for temporary relief of severe symptoms, using them long term is no way to live. Some of the more common drugs given include pain pills, anti-seizure medications, and anti-depressants -- all of which have serious side effects.

The Likely Cause Of Your Problem

My name is Dr. Tripp Stover, clinic director at Stover Chiropractic. I've been helping people with neuropathy and nerve problems for more than 14 years.

Often neuropathy is caused by a degenerating spine pressing on the nerve roots. This can happen in any of the vertebral joints from the neck all the way down to the tail bone.

The good news is that chiropractic treatments have proven effective in helping to remove the pressure on the nerves.

By using gentle techniques, I'm able to release the pressure that has built up on the nerve. This allows the nerve to heal and the symptoms to go away.

For example, numerous studies have proven chiropractic's effectiveness in helping nerve conditions.

Patients showed an **85.5% resolution of the nerve symptoms** after only 9 chiropractic treatments. - *Journal of Chiropractic Medicine* 2008

With chiropractic care, patients had "significant improvement in perceived comfort and function, nerve conduction and finger sensation overall." - *JMPT* 1998

"Significant increase in grip strength and normalization of motor and sensory latencies were noted. Orthopedic tests were negative. Symptoms dissipated." - *JMPT* 1994

What these studies mean is that you could soon be enjoying life...without those aggravating nerve problems.

Could This Be Your Solution?

It's time for you to find out if chiropractic will be your neuropathy solution.

For 14 days only, \$25 will get you all the services I normally charge new patients \$257 for!

What does this offer include? Everything. Take a look at what you will receive:

- An in-depth consultation about your health and well-being where I will listen...really listen...to the details of your case.
- A complete neuromuscular examination.
- A full set of specialized x-rays to determine if a spinal problem is contributing to your pain or symptoms... (NOTE: These would normally cost you at least \$120).
- A thorough analysis of your exam and x-ray findings so we can start mapping out your plan to being pain free.
- I'll answer your most probing questions about nerve problems and how chiropractic can help.

Until May 2nd, 2012 you can get everything I've listed here for only \$25. The normal price for this type of evaluation including x-rays is \$257, so you're saving a considerable amount by

Don't let numbness, tingling and pain hold you back from enjoying life.
